some parts of the city. The President of the Municipality may be empowered to fix, if necessary, a certain sum payable in the case of each service connection.

Mr. D. Venkataramaiya, Bangalore City Municipality.—Quarterly bills are more advantageous than half-yearly or annual bills. Charges for excess water consumption are payable by tenants and it may be difficult to recover such charges if the bills are prepared for long periods.

Mr. K. Krishnamurti Rao, Magadi taluk.—Bills may be prepared half-yearly. Measurements recorded monthly are intimated to the occupant by the Water-Supply Department and so there will be no such difficulty in recovering the charges as that referred to by Mr. Venkataramaiya. Owners of houses may be held responsible for both the water-tax and the charges for excess consumption.

Reply of Government.—Noted.
